
Sociolinguistics Slang Word; on Social Media WhatsApp

Elfrida BR Silalahi, S.Pd.,M.Pd

Universitas Merdeka Malang

SOCIOLINGUISTICS ACCORDING TO EXPERT

William Labov (United States, 1972)

The relationship between language and the social situation of the speaker and raised the idea that the way a language is used varies between people and their circumstances.

Basil Bernstein (United Kingdom, 1924)

Sociology of language and the structure of pedagogical discourse, establishing a determining relationship between the way of speaking and the social class of the person.

Language Variation

In sociolinguistics a language variety, also called a lect, is a specific form of a language or language cluster. It is a general term for any distinctive form of a language or linguistic expression. This may include languages, dialects, registers, styles or other forms of language, as well as a standard variety.

Linguists commonly use language variety as a cover term for any of the overlapping subcategories of a language. Variation at the level of the lexicon, such as slang, argot, jargon, register, and idiom is often considered in relation to particular styles or levels of formality (also called registers), but such uses are sometimes discussed as varieties as well

SLANG

Slang denotes low linguistic register words, phrases, and usages that in their conversation special groups like teenagers, musicians, or criminals favor over standard counterparts in order to establish group identity and exclude outsiders. In its earliest attested use (1756), the word slang referred to the vocabulary of "low or disreputable" people.

PROBLEM

In this world, there is constant advancement and development. These developments resulted in an innovation that is certainly very beneficial to humanity in the world. Communication technology development is a continuous process that will take place throughout time. Changes in areas of daily communication are unavoidably brought about by the advancement of communication technology. Technology drives people to use the language on social media. People can communicate with different people's languages, variations, and accents through internet networks and sites. One of the language variations is slang. When people write on social media captions certainly use slang. Because social media is area of informal language. User sometimes difficult to getting meaning of slang words in Application WhatsApp.
